Summary

Result-driven Java Developer with 2+ years of experience building secure, scalable, and high-performance enterprise applications. Skilled in Java, Spring Boot, Microservices, REST APIs, and SQL with strong expertise in backend development, integration, and database optimization. Proven success in the banking domain with hands-on experience in microservices, security, and cloud tools.

Technical Skills

Programming Languages	Java, JavaScript, SQL
Frameworks & Technologies	Spring Boot, Spring MVC, Hibernate, Microservices, REST APIs, Spring Security
Databases	MySQL, PostgreSQL, Oracle
Cloud & Tools	AWS, Docker, Git, Postman, Kafka, RabbitMQ
Frontend	React.js, HTML5, CSS3, Bootstrap, Thymeleaf
Domain Knowledge	Banking & Financial Services

Professional Experience

Software Developer, Star Agriseeds Pvt. Ltd., Ganganagar, Rajasthan Apr 2024 – Dec 2024

- Designed and integrated 150+ JasperReports, automating credit/debit workflows and reducing reporting time by 40%
- Developed REST APIs with Java 8, Spring Boot, and Hibernate, enabling seamless module communication
- Resolved 50+ backend production issues, improving stability and system performance
- Worked on microservice-based architecture to improve modularity and deployment efficiency

Software Developer, Image Infosystems Pvt. Ltd., Delhi, India Oct 2022 – Dec 2023

- Developed and maintained secure, high-performance transaction systems for banks using Java and Spring Boot
- Reduced database query time by 15% via indexing and SQL query optimization
- Integrated cheque scanning modules and Finacle APIs for seamless banking operations
- Implemented fraud detection and real-time monitoring in financial applications
- Built responsive UIs with JavaScript, HTML5, and CSS3

Projects

Hotel Rating Management System Jan 2024 – Mar 2024

- Developed microservices with Eureka Server, Config Server, and API Gateway for service discovery and routing
- Secured APIs using Spring Security with JWT for role-based authentication and authorization
- Built REST APIs for User, Resort, and Rating services; tested via Postman
- Tech Stack:** Java, Spring Boot, Microservices, JWT, Spring Security, MySQL, Maven
- Available at: github.com/mohdashraf1234/HotelRatingManagementSystem

Smart Cloud-based Contact Application Jan 2023 – Mar 2023

- Built full-stack contact management system with Spring Boot and MySQL for secure data handling
- Integrated Razorpay payment gateway ensuring secure and verified transactions
- Designed responsive UI with Thymeleaf, Bootstrap, HTML, CSS, and JavaScript
- Implemented role-based authentication and optimized performance with JPA and Hibernate
- Tech Stack:** Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, Thymeleaf, Bootstrap, JavaScript, Razorpay

National Bank of Egypt

Oct 2022 – Dec 2022

- Developed and maintained high-performance transaction systems for financial operations
- Implemented fraud detection and real-time monitoring mechanisms
- Integrated cheque scanner technologies with API-based Finacle modules
- Optimized MySQL queries for high availability and performance
- **Tech Stack:** Java, Spring Boot, MySQL

Certifications & Achievements

- Java Full Stack Training, Jspider Noida 2021–2022
- Data Structure and Algorithm (DSA) Course, Learnbay 2023–2024
- Solved 180+ problems on LeetCode: leetcode.com/u/acube
- Solved 150+ problems on GeeksforGeeks & Tpoint Tech
- GitHub: github.com/mohdashraf1234/Data-Structures-and-Algorithms

Education

B.Tech in Electronics and Communication Engineering

ITS Engineering College, Greater Noida

2018–2022

Intermediate

Navyug Inter College, U.P. Board

2016

High School

BKS Bal Bharti Inter College, U.P. Board

2014
