Summary

Result-driven Java Developer with approx 3 years of experience building secure, scalable, and high-performance enterprise applications. Skilled in Core Java, Spring Boot, Microservices, REST APIs, and SQL with a strong focus on backend development and integration. Proven success in the banking domain.

Technical Skills

Programming Languages	C, Core Java, JavaScript
Back-End	J2EE, Spring Boot, Spring MVC, Microservices, RESTful API
Front-End	HTML5, CSS3, JavaScript, Bootstrap
Databases	MySQL, SQL, PostgreSQL, Oracle
Version Control	Git, GitHub
Tools/Tech	Postman, Eclipse,MySQL VS Code, Kafka, AWS,JasperSoft Studio
Banking Knowledge	Cheque Processing, Billing Platforms

Professional Experience

Java Developer, Swapdigit LLP, Bareilly, U.P   Dec 2024 – Present

- Developed and integrated over 150+ JasperReports (.jrxml files) supporting critical credit/debit functionalities.

- Built RESTful APIs for internal module communication using Java 8, Spring Boot, and Hibernate.

- Resolved backend bugs and improved system stability and reliability in a live production environment.

- Worked on microservice-based architecture to improve modularity and deployment.

Software Developer, Star Agriseeds Pvt. Ltd., Ganganagar   Apr 2024 – Dec 2024

- Contributed to the development and enhancement of the **Spine HR System** and **ESSL System**, supporting HR operations and employee management.

- Designed and implemented RESTful APIs for seamless data exchange between internal modules using Java and Spring Boot.

- Worked within a microservices-based architecture using Java, Spring Boot, MySQL, and Kafka to enhance system modularity, scalability, and deployment efficiency.

Software Developer, Image Infosystems Pvt. Ltd., Delhi   Oct 2022 – Dec 2023

- Developed and maintained secure, high-performance transaction systems for banks using Java and Spring Boot.

- Designed responsive UIs with HTML5, CSS3, JavaScript and integrated RESTful services.

- Worked with cheque scanning and Finacle integration modules using APIs.

- Implemented fraud detection logic and real-time monitoring in financial applications.

Projects

Bill Project   January 2025 – November 2025

- Designed and developed credit and debit modules from scratch, supporting core billing operations.

- Identified and resolved backend issues to improve system stability and performance.

- Implemented RESTful controllers and integrated `.jrxml` reports using Java 8, Spring Boot, Microservices architecture, Hibernate, MySQL, and Jasper Studio.

- Developed and maintained 150+ `.jrxml` reports, enabling critical credit and debit workflows and business reporting.

National Bank of Egypt Nov 2022 – Aug 2023

- Developed and maintained high-performance transaction systems using Java.
- Implemented real-time monitoring and fraud detection mechanisms.
- Integrated scanner technologies for document and cheque processing.
- Created robust RESTful APIs for accurate data capture and system integration.
- Managed MySQL databases, ensuring data integrity and high availability.
- Wrote and optimized complex SQL queries for critical financial operations.

Hotel Rating System Mar 2025 – Apr 2025

- Developed a scalable system to manage users and their ratings.
- Built with Eureka Server and Config Server for distributed microservices configuration.
- Designed and exposed REST APIs for User, Resort, and Rating management; tested via Postman.
- Configured API Gateway for unified routing.
- **Tech Stack:** Java, Spring Boot, Microservices, Spring Security, MySQL, Maven.
- Available at: [GitHub Link](#)

Smart Cloud-based Contact Application Dec 2023 – Jan 2024

- Developed a full-stack contact management system using Spring Boot and MySQL.
- Designed responsive UI with Thymeleaf, Bootstrap, HTML, CSS, and JavaScript.
- Integrated Razorpay payment gateway to enable secure transactions.
- Implemented role-based authentication and authorization.
- Optimized performance using Spring Data JPA and Hibernate.

Certifications & Achievements

- Completed 6-month Java Full Stack training from Jspider Noida 2021–2022
- Completed DSA course from Learnbay 2023–2024
- Solved 200 + problems on Leetcodde [https://leetcode.com/u/a$_c$ube$_/$](https://leetcode.com/u/a_cube_/) 2024–2025
- Solved 100+ problems on GeeksforGeeks and Tpoint T 2024

Education

B.Tech (ECE), ITS Engineering College, Greater Noida 2018–2022
CGPA: 63.4%

Navyug Inter College, U.P. Board 2016
Percentage: 78%

BHKS Bal Bharti Inter College, U.P. Board 2014
Percentage: 75%
